

Newsletter November 2009

Test 2way SMS Service for Free.

With 2sms you can not only send a message but also receive one. We will allocate a Virtual Number to your account and messages sent through your 2sms account will appear to come from that number. The inbound replies can be viewed under the reports section, or alternatively we can forward them to Email, Mobile or directly to your system using XML.

To try the 2way SMS UK service for free contact support@2sms.com.

Send SMS from Microsoft SharePoint.

Following requests from customers, 2sms has updated the SMS Microsoft SharePoint application. The SMS Web Part allows customers to make use of company's existing SharePoint portal server and contact information drawn from an LDAP accessible directory, such as the Microsoft Windows Server Active Directory, to make SMS available throughout the organisation in a consistent and easy to use manner. You can download the new version of 2sms SMS application for Microsoft SharePoint from <http://www.2sms.com/software.aspx?section=SharePoint>.

Bookmark and Share.

Gain quick access to our recent news and service outages, issues and updates through Bookmarks. You can subscribe to the 2sms news feeds using Live Bookmarks <http://www.2sms.com/Forum/rssfeed.aspx?id=11&Task=ForumRSS>.

You can also Bookmark and Share your favourite 2sms pages using AddThis tool. This is available in the 2sms's website footer.
