Send SMS alerts while on the move

For customers who are away from their desk, 2sms offers a mobile solution giving access to business SMS services while on the move. Using any web enabled mobile device 2sms customers can access their 2sms account by visiting <http://www.2sms.mobi> and send text messages. This version of the 2sms web site is designed for use with mobile browsers and is optimised to provide fast, easy and secure access to core 2sms services. [Click here](#) for more details.

Reseller Portal

We have recently incorporated the Reseller Portal within 2sms website. The portal allows resellers to not only track activities of their existing customers, but also view new potential users. Resellers can monitor usage and performance, as well as check on their customers recent purchases. To access the portal log into your 2sms online account and select 'Resellers' option from the top menu. For additional information and help with the service please contact support@2sms.com.

Australian Number

In order to support our growing Australian customer base, 2sms has added a Sydney based customer support line. (02) 8014 4576 (+61 280 144 576 if dialled internationally.) This is the first step in increasing our presence in Australia, New Zealand and the rest of the Pan Asian marketplace. We have customers in 35 countries, and local Sales and Customer support are an important part of the 2sms offer. Next up will be an Australian version of the 2sms web site and some exciting new in region partner announcements.
