2sms launches an Android App

Using your 2sms Account with an android mobile has now been made easier with the launch of the 2sms android app. Click [here](#) to download for free.

This application allows 2sms customers to send SMS messages from any android phone using their 2sms account.

With the app you can:

- Send messages,
- View reports,
- Get support,
- Send messages using your mobile contacts,
- Send to one or many message recipients using the 2sms SMS service.

Log on with your username and password to start sending from the app today.

For more information about this product or **for your own business android app** to be created please call us on 01234 757 800 or email us at support@2sms.com

Apps running on smartphones are now in the hands of 30% of users, now over 5 billion apps have been downloaded from the android market. For more information about this product or **for your own business android app** to be created please call us on 01234 757 800 or email us at support@2sms.com
