

2sms Microsoft SharePoint Solution

About 2sms

2sms allows business customers to send text messages from your computer to cell phones anywhere in the world. We help customers improve operations, demonstrate duty of care, and react more responsively to customers.

Text messaging reaches more people than email and faster than calling.

Classification	N/A

The 2sms Microsoft SharePoint Solution SMS Web Part allows you to make use of your company's existing SharePoint portal server and contact information drawn from an LDAP accessible directory, such as the Microsoft Windows Server Active Directory, to make text messaging available throughout your organisation in a consistent and easy to use manner.

The 2sms Microsoft SharePoint solution integrates with your companies existing SharePoint portal server. Functionality:

- ✓ Integrated use, with the Customers SharePoint portal server
- ✓ Send to an unlimited number of recipients, including through the selection of a pre-defined group of numbers
- ✓ Address Book integration
- ✓ Send to mobile numbers and email addresses?
- ✓ Ability to setup Templated and Scheduled Messages
- ✓ Full Reporting

This solution is targeted at customers whose systems are run from Microsoft SharePoint. Use the 2sms Microsoft SharePoint Solution to send SMS Messages:

- To one or more mobiles
- On all networks domestic and international
- Fast turnaround. Our SLA is 97% of messages submitted to a delivery network in less then 60 seconds.

Requirements

Microsoft Sharepoint Server version 2001 and 2003

Installation requires the user to have a 2sms account, this can be setup by visiting

www.2sms.com/register

Or by calling support
